

## Description

EQUAM Global Value invests in a diversified portfolio of companies with clear business models and solid capital structure when they trade at a significant discount to their intrinsic value. We are patient, long term investors.

EQUAM Global Value is subject to strict risk management and diversification parameters to minimise the risk of permanent loss of capital. Our investment portfolio is the result of a thorough analysis, investing only in situations with quantifiable and limited downside and with asymmetric risk return profile, where upside potential exceeds significantly downside and stress test scenari. In the absence of compelling investment opportunities, we are able to hold cash patiently.

EQUAM Global Value is a Luxembourg - domiciled UCITS fund. EQUAM Capital is the registered financial advisor to the Fund, and is devoted exclusively to the research and analysis of potential investments for the Fund.
